

# Twin Cities User Meeting

## Liquid Modelling with FLUID80's ANSYS Toolset

Wednesday, December 6<sup>th</sup>

3:00-5:00 PM

Simulate Fluid Inertia and FSI without CFD

```
ET, MATID, 80  
MP, EX, MATID, 2.2E9  
MP, DENS, MATID, 1000  
MP, SONC, MATID, 1483
```

Join your fellow ANSYS users in the Twin Cities area for a user meeting including technical presentation with handouts.

After the presentation, this informal setting encourages users to exchange experiences with ANSYS features, products, and methods new and old.

Meet at 3PM on Wednesday, Dec 6<sup>th</sup> at Pryes Brewery

Food and beverage provided! This event is free—parking is available in side lot, as well as street parking nearby.

Hosted by Epsilon FEA, the hour-long presentation is followed with informal discussions and networking until five o'clock.

Please RSVP to reserve a seat:
